

Wifi connection VILA NETWORK

STEP

01

At the wifi networks list select the one called **VILA**

STEP

02

Once the connection is established, **log in**

To do so, a **log in form** will appear:

In some devices it appears **automatically**

In some other devices to appear it needs to open a browser.

If you do so and does not work, just **write an address with the 3 "W" at the address bar**

At the form, select "**Convidat**" (above the login button) and **log in** to confirm the connection
